| GIVRO - PR SET   | 38590 |
| GIVRO - END CAP  | 38591 |
| GIVRO - HOLDER   | 38592 |

A fénytömlő egy csatlakozóval és egy végzáróval van ellátva. A fénytömlő csatlakozóját a PR-SET tápegység aljzatához kell csatlakoztatni. A GIVRO LED-ek sorolhatók a termékcsalád különböző hosszúságú tagjaival. Egy PR-SET betáplálással maximum 100 méter hosszúságig sorolható, amennyiben a végzáróhoz csatlakoztatjuk a következő GIVRO LED csatlakoztatóját.

A GIVRO LED tömlő méterenként kijelölt vágási pontokkal rendelkezik, feszültség mentes állapotban a GIVRO LED tömlő ezen pontokon méretre vágható, azonban csak a gyári csatlakozóval ellátott szakasz használható fel, a levágott véget le kell zárni GIVRO END CAP záró elemmel (38591). A végzáróval rendelkező levágott darab nem használható fel, a levágott fénytömlőt ne kösse össze más módon!

A megfelelő működéshez a Kanluxnál kapható GIVRO PR SET tápegység (38590,38593) szükséges.
